GATE AND FENCING HARDWARE

Centsys

Products

Discover a comprehensive range of gate automation solutions with our Centsys Products. Our selection includes cutting-edge gate motors, gate control boards, and a variety of gate accessories, providing a complete solution for all your gate automation needs.

Our Centsys gate motors are designed for reliable operation, catering to sliding and swinging gate types. Equipped with features like remote control access, battery backup, and obstacle detection, these motors offer both convenience and security.

Complementing the gate motors, our gate control boards provide intelligent management and seamless integration for your automation system. They empower you to effortlessly control and monitor access to your property.

Enhance your gate system further with our range of gate accessories, optimized for functionality and convenience. From remotes and keypads to safety sensors and intercom systems, our accessories contribute to a comprehensive automation experience.
